

21 Academic Idioms: Teacher's Notes (p.1) & Answers (pp.2-5)

<u>Video name:</u>	21 Idioms for Academic English
<u>Link to video:</u>	https://www.youtube.com/watch?v=n6SEB4Nemms
<u>Alternate link:</u>	https://v.youku.com/v_show/id_XNTEwOTkxODAzNg==.html
<u>Video length:</u>	19.28
<u>Learning Outcomes:</u>	(1) Understand what idioms are. [Tasks 1, 2] (2) Be aware of reasons to study academic idioms. [Task 3] (3) Understand meaning of common academic idioms. [Task 4, Q5-6] (4) Use academic idioms in sentences. [Task 4, Q7]

Suggested sequence/timings (for teachers)

The following is a possible sequence for a 70' lesson. For a 50' lesson, do 1-2, with 3 (Q6-7) done in a second lesson, as review, along with one of the extension activities.

1. Warm-up (15')

- a) Do *Task 1: Before watching*. This task can be done before giving the handout to students, e.g. copy text/questions to the board or PPT.
- b) Go through answers (see next page). Answers for i) will vary, depending on dictionary used (if any). The key point about idioms is that **the meaning cannot be derived from the individual words**. Be sure to highlight that the idioms in ii) are informal, not academic. They are ones students might have seen before. For iii), most languages will have idioms, and it can be interesting for students to translate literally and share, e.g. *tener memoria de pez* (Spanish, to have a bad memory, literally *to have fish memory*), 人山人海 (Chinese, a sea of people, literally *people mountain, people sea*).

2. Video comprehension (35')

- a) Direct students to watch the video and take notes.
- b) Give out the handout and have students (in pairs) complete Tasks 2-4 (Q1-5 **only**, **NOT** Q6 or Q7). Note that the length of the video means it would probably take too long to allow a second viewing.
- c) Go through answers with students. It is especially important to check the idioms before moving on to Q6 and Q7.

ALTERNATIVE APPROACH

To save time, the teacher could present the information in the first part of the video, and skip Tasks 2-3. In this case, start the video at 3'54" (i.e. 21 Academic Idioms).

3. Using Academic Idioms (20')

- a) Students complete Q6 and Q7. Answers to Q6 could be checked before moving on to Q7.
- b) Go through answers with students.

4. Extension activities

- a) Students could write their own sentences, using some of the idioms. Swap to check.
- b) Students could use a concordancer (such as Lextutor) to see further examples of academic idioms in context.

Answers

21 Academic Idioms

Task 1: Before watching

i) What is an *idiom*? Write a short definition. Use a dictionary if you need to.

Answers will vary depending on the dictionary used.

ii) Below are some common *informal* idioms. Do you know what they mean? Try to match the idiom with the meaning. Use a dictionary to check. An example has been done.

Idiom	Meaning
a piece of cake	to give away a secret
hit the nail on the head	to ignore someone
let the cat out of the bag	to be exactly right
give someone the cold shoulder	something that is very easy to do
speaking of the devil	to achieve two things with one action
kill two birds with one stone	said when someone spoken about unexpectedly appears

iii) Does your language use idioms? If so, how do these translate into English.

Answers will vary, depending on the language.

Task 2: What are idioms?

1. According to the video, an *idiom* is an expression which is:

- fixed
- multi-word
- well-established
- usually difficult to understand

2. Which of these three example idioms, from the first part of the video, is *academic*?

- i. Raining cats and dogs
- ii. Break a leg
- iii. **Beg the question** – *this idiom is academic, #22 for writing*

Task 3: Idioms in Academic English

3. Complete the following tables with data from the video.

List	Coverage of texts	Type of academic idiom	Total number
Academic Idioms (speaking)	<u>0.1</u> %	Spoken	<u>170</u>
Academic Collocation List	<u>10</u> %	Written	<u>36</u>
Academic Word List	10%		

4. According to the video, why is it helpful to study academic idioms for:

- writing/speaking? It will help students writing seem more natural/help students become part of the academic discourse community.
- reading/listening? It will help students understand spoken or written texts (since meaning of idioms cannot be deduced from individual words).

Task 4: 21 Academic Idioms

5. Complete the following academic idioms from the video by adding *one* missing word for each.

in the hands of

go hand in hand with

on the one hand

on the other hand

on the face of it

rule of thumb

bear in mind

in the long run

in the short run

in (the) light of

the bottom line

come into play

a step further/back

the balance of power

driving force

bad news

golden age

along the lines of

last resort

in its own right

gold standard

6. Match the idioms from Q5 to the definitions below. Each idiom should be used once. An example has been done.

Idiom	Meaning
<i>along the lines of</i>	<i>roughly similar to something</i>
come into play	to become an important factor
gold standard	something that is the best example of its kind
the bottom line	the most important aspect of something
bad news	someone or something unpleasant
in its own right	on its own and not because of something else
in (the) light of	because of (some new information)
last resort	a solution chosen only if there are no other options
a step further/back	to make an improvement/to make things worse
driving force	someone/something with the power to make things happen
the balance of power	the way power is distributed between rival groups or countries
on the one hand	from one point of view
in the long run	over a long period of time
in the short run	over a short period of time
go hand in hand with	be closely related to something
on the other hand	from a different point of view
rule of thumb	an approximate way of doing/measuring something
in the hands of	controlled/owned by someone
bear in mind	remember/consider when making a decision
on the face of it	seemingly, based on the evidence
golden age	a period of time when a particular art etc was very successful

7. Complete the following sentences by using one of the idioms. There are 21 gaps in total, so you should use each idiom *exactly once*. You may need to change the form of any idioms which use verbs.
- Coal and steam were the driving force behind the industrial revolution.
 - When learning moved out of the classroom and online because of Covid-19, there were many different teaching techniques which came into play.
 - They were forced to discontinue the product in (the) light of the extremely negative publicity it received.
 - As a rule of thumb, the older a child is, the more they will benefit from doing homework.
 - Most employers hold the balance of power in the workplace, and may force their employees to do unpleasant or stressful work tasks.
 - Reading ability often goes hand in hand with writing ability.
 - It is widely known that half of the world's wealth is in the hands of only 1% of the population.

- viii. Although the research unit was originally part of the physics department, it is now a department in its own right, with completely separate funding and staffing.
