

# **Reporting Verbs: Worksheet**

<u>Video name:</u>	Reporting Verbs in Academic Writing
<u>Link to video:</u>	<u>https://www.youtube.com/watch?v=ZE4yH4wxpj4</u>
<u>Alternate link:</u>	https://v.youku.com/v_show/id_XNTA1MzUxMDAwMA==.html

### Task 1: Before watching

Answer the following questions *before* watching the video.

- i) Why is it important in academic writing to use information from other writers?
- ii) When using information from other writers, it is important to say where the information came from (i.e. to acknowledge the source or cite the source). Why?
- iii) Study the following short passage.
  - How many sources have been cited? \_\_\_\_\_\_
  - Highlight (or underline) the sources.
  - What is the format of the citation (e.g. *name, page, place*, etc.)?

One possible solution is to use fewer resources. Sunil and Robinson (2008) claim that this is the most effective way to tackle the issue. However, using fewer resources leads to reduced production, and, ultimately, reduced profits, making it a less attractive option for most companies (Jones, 2000; Peterson, 2015).

#### Task 2: Overview of reporting verbs

Complete the following notes, which give an overview of *reporting verbs*.

reporting verbs = \_\_\_\_\_ verbs

commonly used for reported \_\_\_\_\_

examples of informal verbs:

## **Task 3**: Meaning of reporting verbs

i) Classify the following reporting verbs, based on their general meaning. All verbs were shown in the video. Each meaning has two verbs. An example has been done for you.

allege	blame	challenge	clarify	concur	consider	contend
contribute	demonstrate	describe	develop	discover	echo	establish
feel	find	highlight	identify	investigate	maintain	notice
observe	outline	propose	question	recommend	study	underscore

Meaning	Examples of verbs	Meaning	Examples of verbs
agree	concur	examine	
disagree		explain	
accuse		see	
add		show	
believe		state	
conclude		suggest	
emphasise		think	

ii) Try to add *at least one* further example for each general meaning.

<b>Task 4</b> : <u>St</u>	rength of repo	rting v <u>erbs</u>				
-	ne following ver		g to strength	n. All were sh	own in the vid	eo.
accuse	acknowledge	admit	advise	analyse	argue	assert
assume	calculate	compare	criticise	discuss	doubt	establish
insist	note	notice	prove	question	recognise	reflect
remark	state	stress	suppose	take into co	onsideration	warn
<						
Weak			Neutra	I		Strong
