Worksheet

Video name: What is academic vocabulary

Link to video: https://www.youtube.com/watch?v=XOT_Y0GytnM Alternate link: https://v.youku.com/v show/id XNjM3MDk4NTg5Mg==.html

Task 1: Before watching

- a) With a partner, discuss how you normally record new words. Do you have a special notebook for new vocabulary? What information do you write down?
- b) When studying vocabulary it is important to focus on the word's meaning. What other things are important? In particular, think about if you want to use the word in your:
 - Writing
 - Speaking •

Task 2: Features of academic vocabulary

Watch the video **from the start up to 09:38** and complete the following notes.

most basic feature most basic feature most words have 1	Waaning
most words have 1 meanings best to focus on 2 meaning only (e.g. meaning in context you encountered it) Frequency key Q: Ts it a 3 word? if the word is low-frequency then 4 focus on: 0 0 5 words (e.g. most common 2,000 words = 6?o of English, most common 3,000 words = 7?o of English) 0 8. common words (e.g. words in the Academic word List AWL) 0 9. common words (e.g. words in the Academic word List AWL) 0 9. common words (e.g. words in the Academic word List AWL) 0 9. common words (e.g. words in the Academic word List AWL) 0 9 words (e.g. words with more than one syllable Spelling can be difficult as shown by homophones (words which 12 but spelt differently) Word form also called 13 also called 13 and 16	<u>Meaning</u>
best to focus on 2	
Ereauency key Q: Is it a 3 word? if the word is low-frequency then 4 focus on: O 5 words (e.g. most common 2,000 words = 6?o of English, most common 3,000 words = 7?o of English) O 8. common words (e.g. words in the Academic word List AWL) O 9 words (e.g. osmosis for Biology, aggregate for Economics) Pronunciation difficult because of large number of 10 sounds many words spelled similarly but pronounced differently useful to make a note of 11 for words with more than one syllable Spelling can be difficult as shown by homophones (words which 12 but spelt differently) word form also called 13 noun, verb, adjective, adverb Word family group of words related by a 14 base word helpful to study 15 and 16 or in particular 18 key Q: Is it an 19 word? register is generally 20 but some words still unsuitable (e.g. hereinafter) words like OK Bart, So are acceptable for 21 unsuifling 23	
key Q: Is it a 3	
if the word is low-frequency then 4	
focus on:	
 S	if the word is low-frequency then 4 .
most common 3,000 words = 7?o of English) O 8. common words (e.g. words in the Academic Word List AWL) O 9 words (e.g. osmosis for Biology, aggregate for Economics) Pronunciation difficult because of large number of 10 sounds many words spelled similarly but pronounced differently useful to make a note of 11 for words with more than one syllable Spelling can be difficult as shown by homophones (words which 12 but spelt differently) Word form also called 13 noun, verb, adjective, adverb base word Word family group of words related by a 14 base word helpful to study 15 and 16 or in particular 18 refers to language used for particular 17 or in particular 18 words like OK, But, So are acceptable for 21 Words like OK, But, So are acceptable for 21 Usage relates to the grammar of a word (e.g. prepare 22, unwilling 23) Collocation means 24	
most common 3,000 words = 7?o of English) O 8. common words (e.g. words in the Academic Word List AWL) O 9 words (e.g. osmosis for Biology, aggregate for Economics) Pronunciation difficult because of large number of 10 sounds many words spelled similarly but pronounced differently useful to make a note of 11 for words with more than one syllable Spelling can be difficult as shown by homophones (words which 12 but spelt differently) Word form also called 13 noun, verb, adjective, adverb base word Word family group of words related by a 14 base word helpful to study 15 and 16 or in particular 18 refers to language used for particular 17 or in particular 18 words like OK, But, So are acceptable for 21 Words like OK, But, So are acceptable for 21 Usage relates to the grammar of a word (e.g. prepare 22, unwilling 23) Collocation means 24	O 5 words (e.g. most common 2,000 words = 6 70 of English,
O 9	most common 3,000 words = 7 % of English)
Pronunciation difficult because of large number of 10 sounds many words spelled similarly but pronounced differently useful to make a note of 11 for words with more than one syllable Spelling can be difficult as shown by homophones (words which 12 but spelt differently) Word form also called 13 noun, verb, adjective, adverb word family group of words related by a 14 base word helpful to study 15 or in particular 18 Register refers to language used for particular 17 or in particular 18 word? word? register is generally 20 but some words still unsuitable (e.g. hereinafter) words like OK, But, So are acceptable for 21 Usage relates to the grammar of a word (e.g. prepare 22, unwilling 23) Collocation words which frequently go together	O 8. common words (e.g. words in the Academic Word List AWL)
Pronunciation difficult because of large number of 10 sounds many words spelled similarly but pronounced differently useful to make a note of 11 for words with more than one syllable Spelling can be difficult as shown by homophones (words which 12 but spelt differently) Word form also called 13 noun, verb, adjective, adverb word family group of words related by a 14 base word helpful to study 15 or in particular 18 Register refers to language used for particular 17 or in particular 18 word? word? register is generally 20 but some words still unsuitable (e.g. hereinafter) words like OK, But, So are acceptable for 21 Usage relates to the grammar of a word (e.g. prepare 22, unwilling 23) Collocation words which frequently go together	O 9 words (e.g. <i>osmosis</i> for Biology, <i>aggregate</i> for Economics)
difficult because of large number of 10	
many words spelled similarly but pronounced differently useful to make a note of 11 for words with more than one syllable Spelling can be difficult as shown by homophones (words which 12 but spelt differently) Word form also called 13 noun, verb, adjective, adverb Word family group of words related by a 14 base word helpful to study 15 and 16 or in particular 18 refers to language used for particular 17 or in particular 18 key Q: Is it an 19 word? register is generally 20 but some words still unsuitable (e.g. hereinafter) words like OK, But, So are acceptable for 21 Usage relates to the grammar of a word (e.g. prepare 22, unwilling 23) Collocation means 24 words which frequently go together	
useful to make a note of 11 for words with more than one syllable Spelling can be difficult as shown by homophones (words which 12 but spelt differently) Word form also called 13 noun, verb, adjective, adverb Word family group of words related by a 14 base word helpful to study 15 and 16 (e.gtor, -ivity) Register refers to language used for particular 17 or in particular 18 key Q: Is it an 19 word? register is generally 20 but some words still unsuitable (e.g. hereinafter) words like OK, But, So are acceptable for 21 Usage relates to the grammar of a word (e.g. prepare 22, unwilling 23) Collocation means 24 words which frequently go together	
Spelling can be difficult as shown by homophones (words which 12 but spelt differently) Word form also called 13 noun, verb, adjective, adverb word family group of words related by a 14 base word helpful to study 15 and 16 or in particular 18 Register refers to language used for particular 17 or in particular 18 key Q: Is it an 19 but some words still unsuitable (e.g. hereinafter) Words like OK, But, So are acceptable for 21 Usage relates to the grammar of a word (e.g. prepare 22, anwilling 23) Collocation means 24 words which frequently go together	
can be difficult as shown by homophones (words which 12 but spelt differently) Word form also called 13 noun, Verb, adjective, adverb Word family group of words related by a 14 base word helpful to study 15 and 16 (e.gtor, -ivity) Register refers to language used for particular 17 or in particular 18 key Q: Is it an 19 word? register is generally 20 but some words still unsuitable (e.g. hereinafter) Words like OK, But, So are acceptable for 21 Usage relates to the grammar of a word (e.g. prepare 22, unwilling 23) Collocation means 24 words which frequently go together	
Word form also called 13	Spelling
also called 13	
noun, verb, adjective, adverb Word family group of words related by a 14 base word helpful to study 15 and 16 (e.gtor, -ivity) Register refers to language used for particular 17 or in particular 18 key Q: Is it an 19 word? register is generally 20 but some words still unsuitable (e.g. hereinafter) Words like OK, But, So are acceptable for 21 Usage relates to the grammar of a word (e.g. prepare 22, unwilling 23) Collocation means 24 words which frequently go together	can be difficult as shown by <i>homophones</i> (words which 12. but spelt differently)
Word family group of words related by a 14 base word helpful to study 15 and 16 (e.gtor, -ivity) Register refers to language used for particular 17 or in particular 18 key Q: Is it an 19 word? register is generally 20 but some words still unsuitable (e.g. hereinafter) Words like OK, But, So are acceptable for 21 Usage relates to the grammar of a word (e.g. prepare 22, unwilling 23) Collocation means 24 words which frequently go together	can be difficult as shown by <i>homophones</i> (words which 12 but spelt differently) <u>Word form</u>
group of words related by a 14 base word helpful to study 15 and 16 (e.gtor, -ivity) <u>Register</u> refers to language used for particular 17 or in particular 18 key Q: Is it an 19 word? register is generally 20 but some words still unsuitable (e.g. <i>hereinafter</i>) Words like <i>OK</i> , <i>But</i> , <i>So</i> are acceptable for 21 <u>Usage</u> relates to the grammar of a word (e.g. <i>prepare</i> 22, <i>unwilling</i> 23) <u>Collocation</u> means 24 words which frequently go together	can be difficult as shown by <i>homophones</i> (words which 12 but spelt differently) <u>Word form</u> also called 13
helpful to study 15 and 16 (e.gtor, -ivity) <u>Register</u> refers to language used for particular 17 or in particular 18 key Q: Is it an 19 word? register is generally 20 but some words still unsuitable (e.g. hereinafter) Words like OK, But, So are acceptable for 21 Usage relates to the grammar of a word (e.g. prepare 22, unwilling 23) <u>Collocation</u> means 24 words which frequently go together	can be difficult as shown by <i>homophones</i> (words which 12 but spelt differently) <u>Word form</u> also called 13 noun, verb, adjective, adverb
Register refers to language used for particular 17 or in particular 18 key Q: Is it an 19 word? register is generally 20 but some words still unsuitable (e.g. hereinafter) Words like OK, But, So are acceptable for 21 Usage relates to the grammar of a word (e.g. prepare 22, unwilling 23) Collocation means 24 words which frequently go together	can be difficult as shown by <i>homophones</i> (words which 12 but spelt differently) <u>Word form</u> also called 13 noun, verb, adjective, adverb <u>Word family</u>
refers to language used for particular 17 or in particular 18 key Q: Is it an 19 word? register is generally 20 but some words still unsuitable (e.g. <i>hereinafter</i>) Words like <i>OK, But, So</i> are acceptable for 21 <u>Usage</u> relates to the grammar of a word (e.g. <i>prepare</i> 22, <i>unwilling</i> 23) <u>Collocation</u> means 24 words which frequently go together	can be difficult as shown by <i>homophones</i> (words which 12 but spelt differently) <u>Word form</u> also called 13 noun, verb, adjective, adverb <u>Word family</u> group of words related by a 14 base word
key Q: Is it an 19 word? register is generally 20 but some words still unsuitable (e.g. hereinafter) Words like OK, But, So are acceptable for 21 Usage relates to the grammar of a word (e.g. prepare 22, unwilling 23) Collocation means 24 words which frequently go together	can be difficult as shown by <i>homophones</i> (words which 12 but spelt differently) <u>Word form</u> also called 13 noun, verb, adjective, adverb <u>Word family</u> group of words related by a 14 base word helpful to study 15 and 16 (e.gtor, -ivity)
register is generally 20 but some words still unsuitable (e.g. <i>hereinafter</i>) Words like <i>OK, But, So</i> are acceptable for 21 <u>Usage</u> relates to the grammar of a word (e.g. <i>prepare</i> 22, <i>unwilling</i> 23) <u>Collocation</u> means 24 words which frequently go together	can be difficult as shown by <i>homophones</i> (words which 12 but spelt differently) <u>Word form</u> also called 13 noun, verb, adjective, adverb <u>Word family</u> group of words related by a 14 base word helpful to study 15 and 16 (e.gtor, -ivity) <u>Register</u>
Words like OK, But, So are acceptable for 21. <u>Usage</u> relates to the grammar of a word (e.g. prepare 22. <u>Collocation</u> means 24. words which frequently go together	can be difficult as shown by <i>homophones</i> (words which 12 but spelt differently) Word form also called 13 noun, verb, adjective, adverb Word family group of words related by a 14 base word helpful to study 15 and 16 and 16 or in particular 18
<u>Usage</u> relates to the grammar of a word (e.g. <i>prepare</i> 22, <i>unwilling</i> 23) <u>Collocation</u> means 24 words which frequently go together	can be difficult as shown by <i>homophones</i> (words which 12 but spelt differently) <u>Word form</u> also called 13 noun, verb, adjective, adverb <u>Word family</u> group of words related by a 14 base word helpful to study 15 and 16 (e.gtor, -ivity) <u>Register</u> refers to language used for particular 17 or in particular 18
relates to the grammar of a word (e.g. <i>prepare</i> 22, <i>unwilling</i> 23) <u>Collocation</u> means 24 words which frequently go together	can be difficult as shown by <i>homophones</i> (words which 12 but spelt differently) <u>Word form</u> also called 13 noun, verb, adjective, adverb <u>Word family</u> group of words related by a 14 base word helpful to study 15 and 16 (e.gtor, -ivity) <u>Register</u> refers to language used for particular 17 or in particular 18
<u>Collocation</u> means 24 words which frequently go together	can be difficult as shown by <i>homophones</i> (words which 12 but spelt differently) <u>Word form</u> also called 13 noun, verb, adjective, adverb <u>Word family</u> group of words related by a 14 base word helpful to study 15 and 16 (e.gtor, -ivity) <u>Register</u> refers to language used for particular 17 or in particular 18 key Q: Is it an 19 word? register is generally 20 but some words still unsuitable (e.g. <i>hereinafter</i>)
means 24 words which frequently go together	can be difficult as shown by <i>homophones</i> (words which 12 but spelt differently) <u>word form</u> also called 13 noun, verb, adjective, adverb <u>word family</u> group of words related by a 14 base word helpful to study 15 and 16 (e.gtor, -ivity) <u>Register</u> refers to language used for particular 17 or in particular 18 key Q: Is it an 19 word? register is generally 20 but some words still unsuitable (e.g. <i>hereinafter</i>) Words like <i>OK</i> , <i>But</i> , <i>So</i> are acceptable for 21
	can be difficult as shown by <i>homophones</i> (words which 12 but spelt differently) <u>word form</u> also called 13 noun, verb, adjective, adverb <u>word family</u> group of words related by a 14 base word helpful to study 15 and 16 (e.gtor, -ivity) <u>Register</u> refers to language used for particular 17 or in particular 18 key Q: Is it an 19 word? register is generally 20 but some words still unsuitable (e.g. <i>hereinafter</i>) Words like <i>OK</i> , <i>But</i> , <i>So</i> are acceptable for 21
	can be difficult as shown by homophones (words which 12
	can be difficult as shown by homophones (words which 12 but spelt differently) Word form also called 13

Task 3: Features and related skills

Complete the following table showing which skills (Reading, Writing, Listening, Speaking) each feature is important for. The first two (*Meaning* and *Frequency*) have been done.

Feature	Re	Wr	Li	Sp
1. Meaning	✓	✓	✓	✓
2. Frequency	✓	✓	✓	✓
3. Pronunciation				
4. Spelling				
5. Word form				
6. Word family				
7. Register				
8. Usage				
9. Collocation				

Task 4: Example word: Conclusion

Watch the video from 09:38 to the end and answer the following questions about the word *Conclusion*.

- a) Mark the stress on the word Conclusion. How many syllables does it have?
- b) Complete the meaning: A ______, opinion or judgment reached after __
- c) Complete the gaps in the following sentences by changing the word form of *conclusion* from noun to a different part of speech.
 - O The report ______ that there was a clear link between smoking and lung cancer, and recommended stronger action by the government.
 - O While the findings suggest some link between video games and teenage violence, the evidence is ______ and it is not possible to make recommendations.
 - O The report _______ shows that further research is needed in this area.

d) Complete the following sentences using a suitable *collocation* from the video.

- O We _____ the conclusion that repeating the experiment was unnecessary and potentially harmful to the participants.
- **conclusion** was that an error had been made when O The most _____ measuring the result.
- O Although it was not possible to formulate detailed conclusions, some **_____ conclusions** were presented in the paper.
- O His speech ended with some **concluding** ______ regarding increased funding for the department.

Answers

Task 1: Before watching

- a) With a partner, discuss how you normally record new words. Do you have a special notebook for new vocabulary? What information do you write down? Answers will vary. Discuss with students whether they actually record new vocabulary. If possible, get students to share their vocabulary notebooks.
- b) When studying vocabulary it is important to focus on the word's meaning. What other things are important? In particular, think about if you want to use the word in your:
 - Writing
 - Speaking

Task 2: Features of academic vocabulary

Watch the video from the start up to 09:38 and complete the following notes. Meaning most basic feature most words have 1. <u>multiple</u> meanings best to focus on 2. single meaning only (e.g. meaning in context you encountered it) Frequency key Q: Is it a 3. <u>common</u> word? if the word is low-frequency then 4. don't study it! focus on: O 5. high-frequency words (e.g. most common 2,000 words = 6. 90% of English, most common 3,000 words = 7.95% of English) O **8.** common <u>academic</u> words (e.g. words in the Academic word List AWL) O 9. <u>technical</u> words (e.g. *osmosis* for Biology, *aggregate* for Economics) Pronunciation difficult because of large number of 10. <u>vowel</u> sounds many words spelled similarly but pronounced differently useful to make a note of 11. stress for words with more than one syllable Spelling can be difficult as shown by *homophones* (words which **12**. sound the same but spelt differently) Word form also called 13. part of speech noun, verb, adjective, adverb Word family group of words related by a 14. common base word helpful to study 15. prefixes and 16. suffixes (e.g. -tor, -ivity) <u>Register</u> refers to language used for particular 17. purpose or in particular 18. social setting key Q: Is it an 19. <u>academic</u> word? register is generally 20. formal but some words still unsuitable (e.g. hereinafter) Words like OK, But, So are acceptable for 21. presentations or lectures <u>Usage</u> relates to the grammar of a word (e.g. prepare 22. for, unwilling 23. to do) Collocation means 24. two or more words which frequently go together e.g. cultural 25. diversity, accept 26. responsibility

- 3 -

Task 3: Features and related skills

Complete the following table showing which skills (Reading, Writing, Listening, Speaking) each feature is important for. The first two (*Meaning* and *Frequency*) have been done.

Feature	Re	Wr	Li	Sp
1. Meaning	✓	\checkmark	~	~
2. Frequency	✓	\checkmark	~	~
3. Pronunciation			~	~
4. Spelling		✓		
5. Word form		✓		✓
6. Word family		✓		✓
7. Register		✓		✓
8. Usage		✓		\checkmark
9. Collocation		\checkmark		\checkmark

Task 4: Example word: Conclusion

Watch the video from 09:38 to the end and answer the following questions about the word Conclusion.

- a) Mark the stress on the word **Conclusion**. How many syllables does it have?
- b) Complete the meaning: A *position*, opinion or judgment reached after *consideration*.
- c) Complete the gaps in the following sentences by changing the word form of *conclusion* from noun to a different part of speech.
 - O The report **concluded** that there was a clear link between smoking and lung cancer, and recommended stronger action by the government.
 - While the findings suggest some link between video games and teenage violence, the Ο evidence is **inconclusive** and it is not possible to make recommendations.
 - The report **<u>conclusively</u>** shows that further research is needed in this area. Ο

d) Complete the following sentences using a suitable *collocation* from the video.

- O We **drew/reached the conclusion** that repeating the experiment was unnecessary and potentially harmful to the participants.
- O The most **logical conclusion** was that an error had been made when measuring the result.
- Although it was not possible to formulate detailed conclusions, some 0 general conclusions were presented in the paper.
- O His speech ended with some **concluding remarks** regarding increased funding for the department.

Teacher's Notes

<u>Video name:</u>	Features of academic vocabulary
<u>Link to video:</u>	https://www.youtube.com/watch?v=XOT_Y0GytnM
<u>Alternate link:</u>	<u>https://v.youku.com/v_show/id_XNjM3MDk4NTg5Mg==.html</u>
<u>Video length:</u>	13.06
<u>Learning</u>	(1) Reflect on current vocabulary study [<i>Task 1</i>]
<u>Outcomes</u>	(2) Understand important features of vocabulary [Task 2]
	(3) Understand which skills each feature is important for [Task 3]
	(4) Apply detailed study of one word (<i>conclusion</i>) to authentic language [<i>Task 4</i>]

Suggested sequence/timings (for teachers)

The following is a possible sequence. Total timing is 55'.

1. Warm-up (10')

Students complete Task 1. This task gets them to reflect on their current vocabulary study and prepares them for the video by considering some ideas of important features of vocabulary. If possible, have students share their vocabulary notes or notebooks.

2. Video comprehension #1 (30')

- a) Direct students to watch the video (up to 09:38) and take notes.
- b) Give out the handout and have students (in pairs) complete Task 2. Students may need to work together. Alternative approaches: (a) watch the video a second time; (b) give out handout first, pause after each feature and elicit answers.
- c) Move on to Task 3, to make sure students understand which skill each feature is important for (most are for speaking and writing, i.e. productive skills).
- d) Go through answers with students.

3. Video comprehension #2 (15')

- a) Students watch the remaining part of the video (09:38 to end).
- b) Students complete Task 4.
- c) Go through answers with students.

NOTE: If 1 + 2 take too long, 3 can be left to another lesson.

4. Extension activities

- a) Give students one or more words. Have them conduct detailed study of those words, using dictionaries or online sources. If possible, set exercises for students to complete to test knowledge of the words.
- b) Have students explore frequency information of words, using the academic word profiler shown in the video:

https://www.eapfoundation.com/vocab/profiler/singleword/
